AGENDA

- 01 UNSTRUCTURED DATA
- 02 NATURAL LANGUAGE PROCESSING
- 03 WAYS TO IMPLEMENT
- 04 STEPS TO TRAIN

UNSTRUCTURED DATA - TEXT

UNSTRUCTURED DATA CHANGES NATURE OF ANALYTICS

90%

MODERN BI
PLATFORMS

By 2020, natural-language generation and artificial intelligence will be a standard feature of 90% of modern BI platforms

50%

ANALYTIC QUERIES

By 2020, 50% of analytic queries will be generated using search, natural-language processing or voice, or will be autogenerated

5X

CITIZEN DATA
SCIENTISTS

Through 2020, the number of citizen data scientists will grow five times faster than the number of data scientists

2015

2016

2017

2018

2019

2020

EXAMPLE

I WORK FOR A COMPANY SELLING
ARTIFICIAL INTELLIGENCE
AN EXISTING OPPORTUNITY IN SALESFORCE

NOTES AND DESCRIPTIONS?

WHAT

What value may exist in open text fields?

WHERE

Is there value in Notes or Comments?

HOW

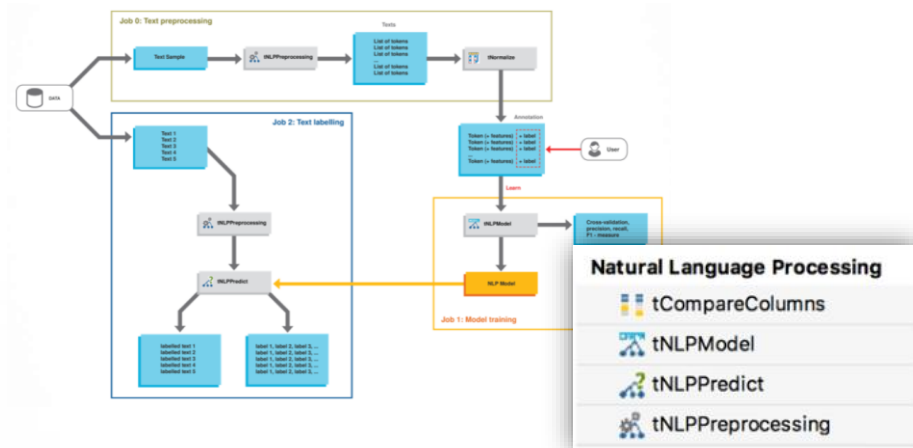

How do we know if there is value?

PARSE

Can we parse the data for what our company needs?

NATURAL LANGUAGE PROCESSING (NLP)

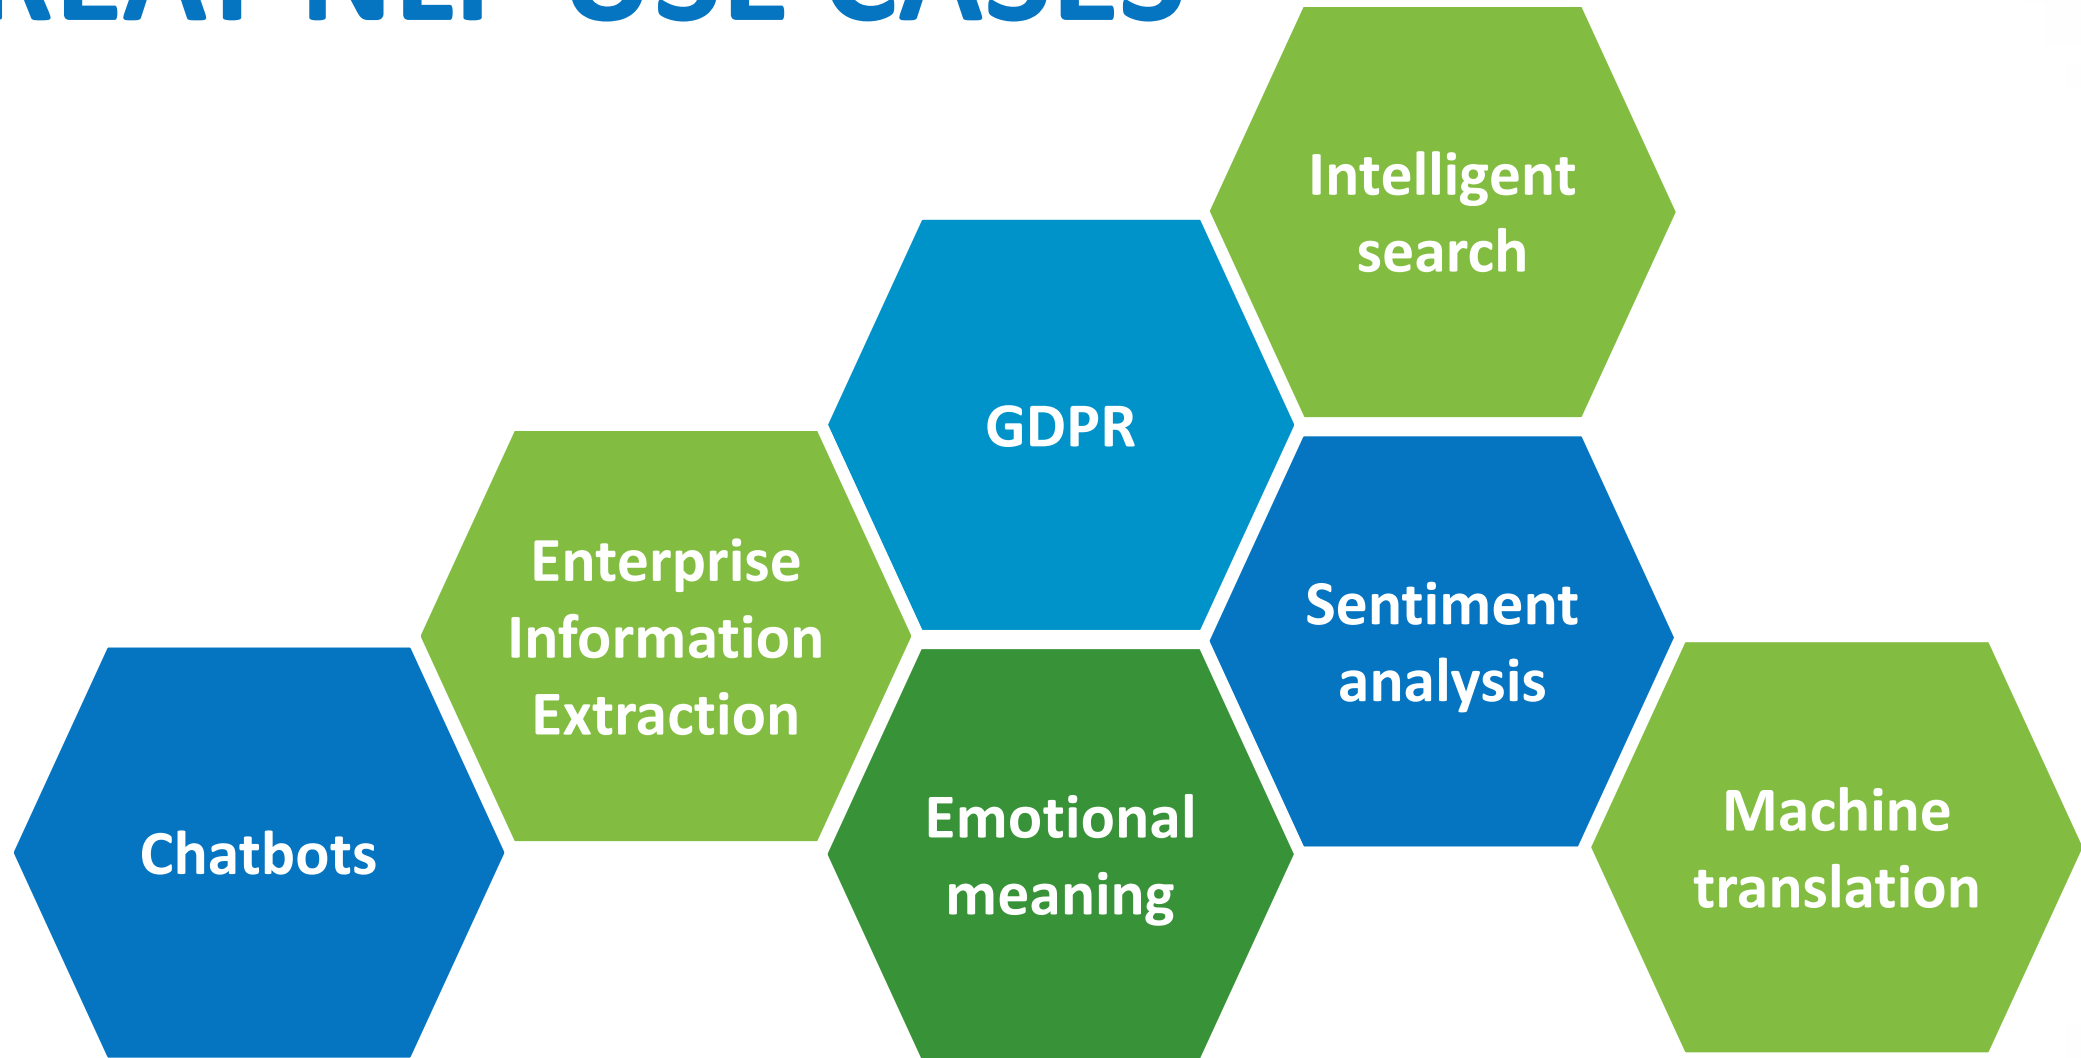

NATURAL LANGUAGE PROCESSING (NLP)

- Extract useful information
- Finds people names, companies, tools
- Classify discussions
- Entity linking (e.g. persons and organizations linking)

Benefits: Make your integration intelligent. Create new data-driven insights.

GREAT NLP USE CASES

WAYS TO IMPLEMENT NLP

HOW TO IMPLEMENT NLP

**Service
with broad
capabilities**

Google
Azure
AWS

**Target
pre-packaged
models**

Klevu - eCommerce
Insight Engines - Enterprise
MindMeld – ChatBots

**Data
training**

Spark ML
Stanford
TensorFlow

GOOGLE'S NLP SERVICE - EXAMPLE

Try the API

In the Facebook Live, Mark Zuckerberg says he opposes the spread of fear surrounding the potential of artificial intelligence.

"I have pretty strong opinions on this. I am optimistic," says Zuckerberg. "I think you can build things and the world gets better. But with AI especially, I am really optimistic."

What Agolo does

Scan

Ingests public text and internal documents.

Organize

Identifies relationships among sources.

Summarize

Uncovers the most relevant information.

EXAMPLE

See it in action

Newsfeed from Reuters

Long list of China high-yield issuers due to make May debt payments

Article from the Wall Street Journal

China Bondholders Lose Their Beijing Bailout Confidence

TRAIN AN NLP MODEL

TRAIN THE MODEL – USE YOUR DATA

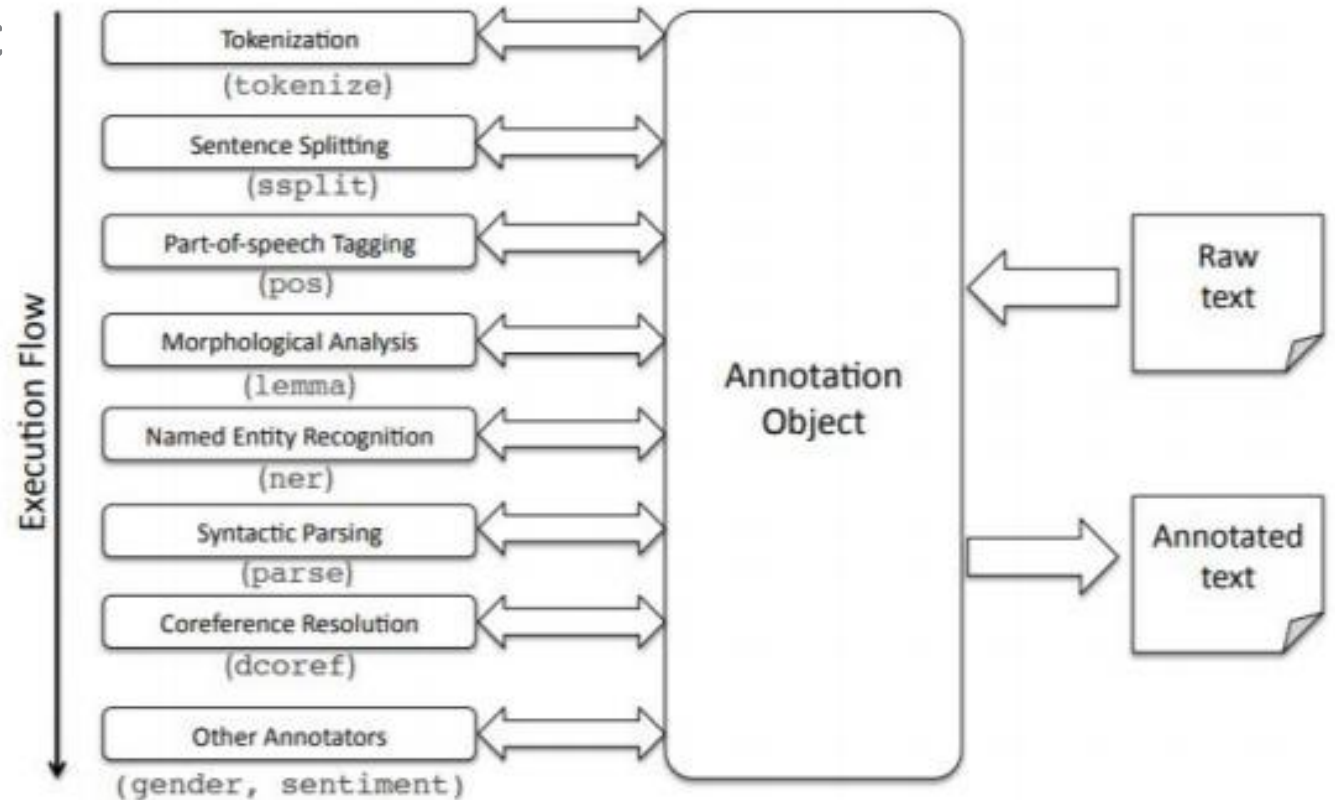

HOW TO TRAIN A NLP MODEL?

BASIC FLOW TO NLP TRAINING

Natural language processing basic tasks include:

- Text tokenization
- Label / Annotations
- Syntax/Semantics/Discourse
 - Sentence splitting
 - Named entity recognition

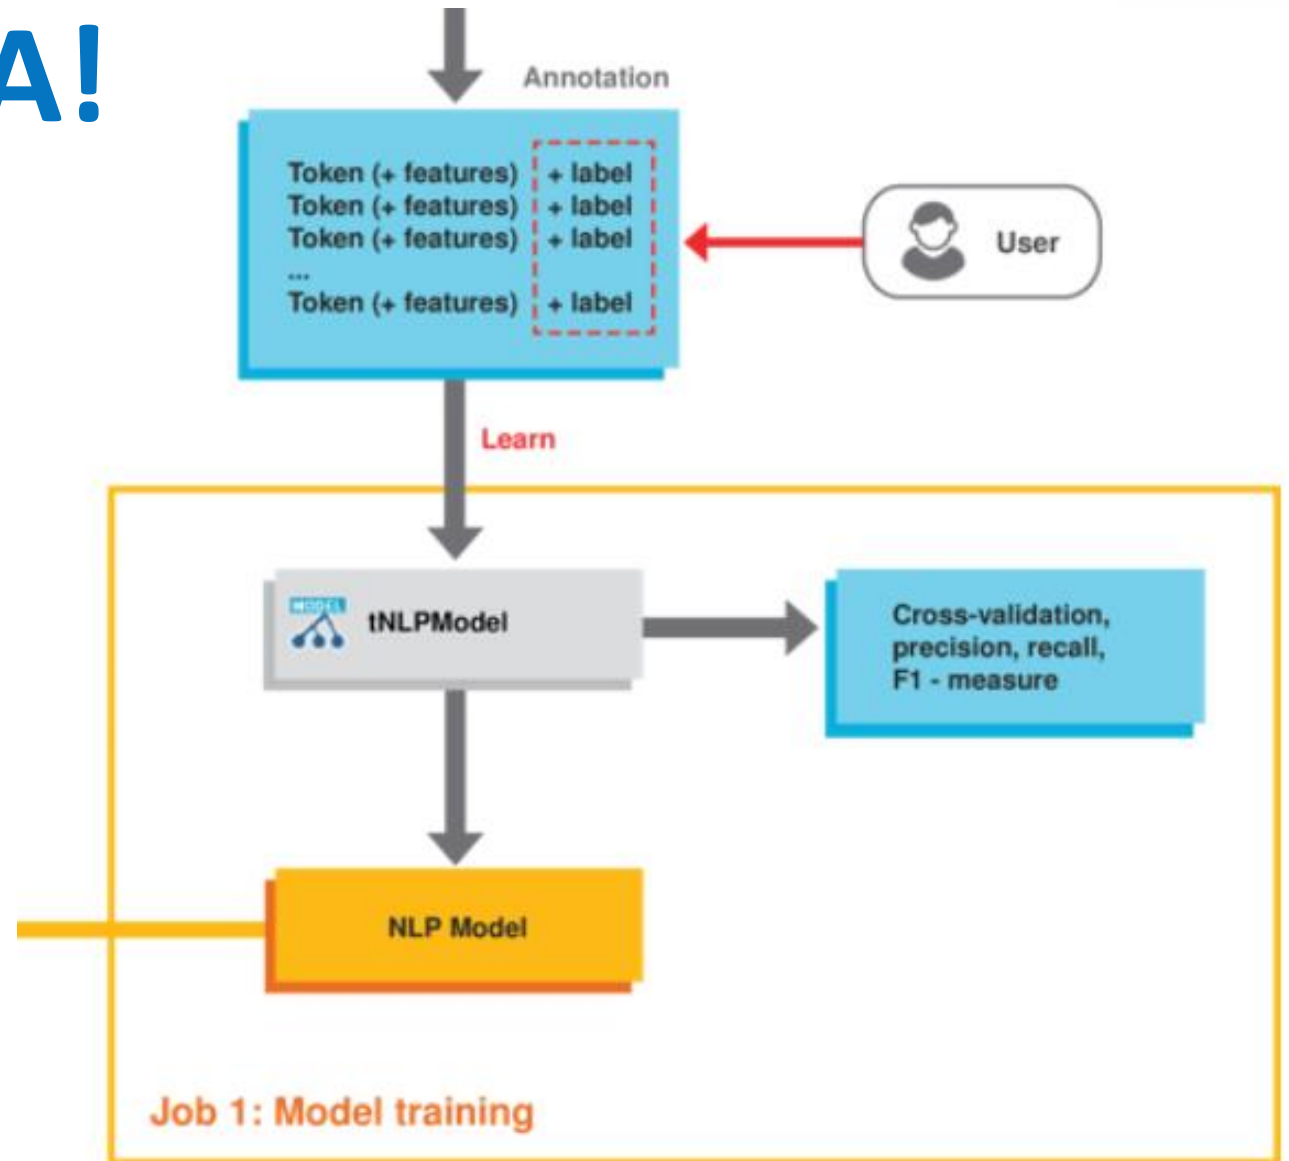

*Stanford CoreNLP

LABEL YOUR DATA!

```

does 0.61 F F 0
```

A green arrow points from the word "PER" to the word "PER" in the text data.

PARSE RESULTS AND LOAD!

Grif Thanks for the reply. I did not get to mention all 3 computers are running XP. Two have the Home Ver and 1 the Pro Ver. The one giving me the problem has the Home Ver and is my "main" desktop computer. The weird thing is the other two (a laptop & 2nd desktop) are still networked. The "main" desktop has my printer connected to it, so until I can get it "networked" with the others, I can't print from either of them. Can I assume that since none of them have Vista that I do not need to download and run the program you suggested?

Alan
