Open Source Tooling Group

github.com/Open-Source-Compliance/Sharing-creates-value

Motivation

OSS compliance is a very important topic for every company that uses OSS
During the last years more and more OSS tools and projects have been started to support OSS compliance

Why not having an E2E tool chain for OSS compliance completely consisting of OSS tools only?

fossology

OSS **Review Toolkit**

And more ….

Goals of the Group

- Understand which OSS-based compliance tools do exist and what they do
- Draw a landscape of tools to identify overlap and gaps and integration needs
- Encourage contributions to OSS-based compliance tooling and collaboration between them
- Deploy real case scenario comprised of OSS-based compliance tooling interoperating together
