Rakuten Mobile Network, Inc.

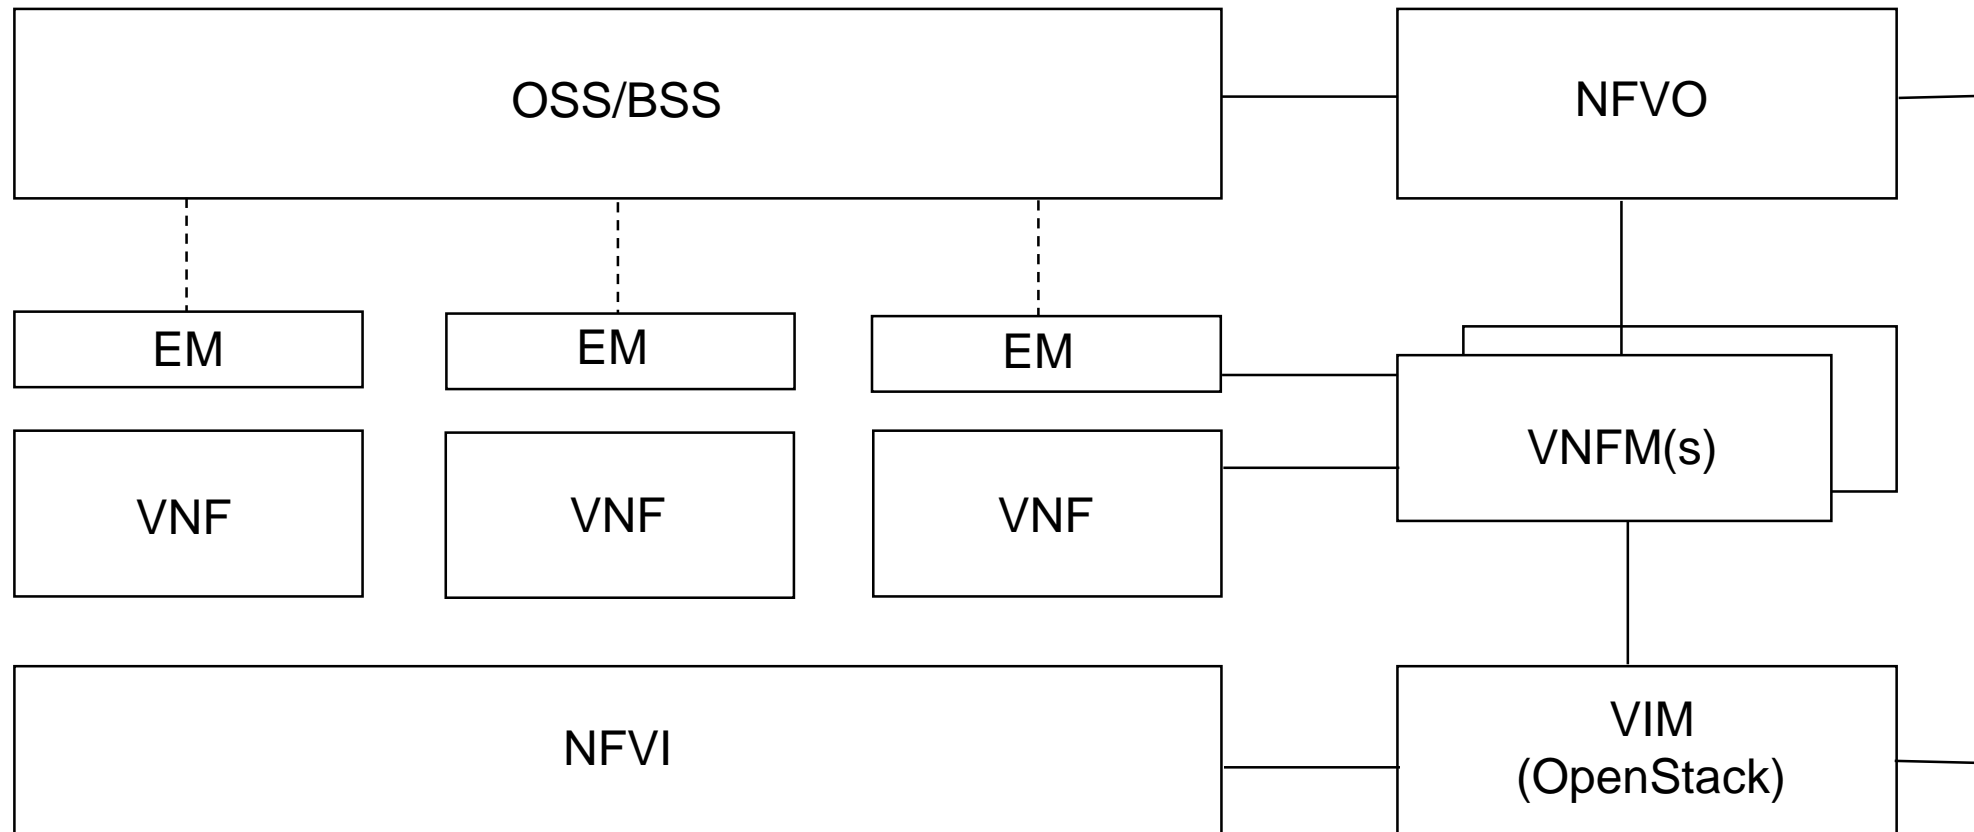

OSND, Tokyo, 2018

# Rakuten Mobile Network, Inc.

# ETSI NFV compliant

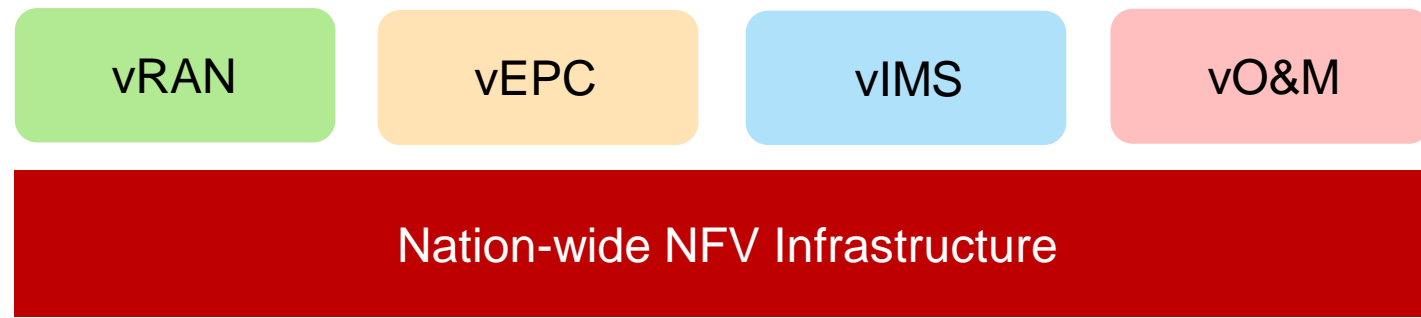

- Compliant to ETSI NFV Architecture and standards
  - Multi-vendor implementation on COTS

Everything is brand new

# Deployment scenario

- Distributed clouds will host Rakuten's mobile network

Complete virtualization will enable us rolling 5G out faster

## Into the future ...

- Newest MNO in Japan
- Have taken bold technological decisions
- Building on best practices including opensource
- Extensive testing and validation going on
- Automation of operation is a major objective

**Rakuten will contribute to NFV and opensource to achieve completeness**

**Rakuten**
