KubeCon

CloudNativeCon

The Cloud Native Computing Foundation's flagship conference gathers leading technologists from leading open source and cloud native communities to further the education and advancement of cloud native computing.

Kubernetes and other cloud native technologies enable higher velocity software development at a lower cost than traditional infrastructure. Cloud native – orchestrating containers as part of a microservices architecture – is a departure from traditional application design. The Cloud Native Computing Foundation is helping to build a map through this new terrain, and KubeCon + CloudNativeCon is where the community comes together to share their expertise on this formerly uncharted but increasingly popular territory.

Cross-Promotion of Pre-Approved Community Events

Organizing an event for attendees? The Cloud Native Computing Foundation would be happy to help promote your event to our attendees. Benefits include:

- Your event listed on the conference website.
- Optional: Your event listed on the KubeCon + CloudNativeCon registration form. Attendees can add your event to their conference registration. Additional registration processing fees apply based on number of attendees and event revenue.

Attendee T-Shirt

Sponsor logo will be placed on all attendee t-shirts. Logo size and placement subject to t-shirt design and approval.

Lanyards

Showcase your logo on every attendee with the lanyard sponsorship.

Diversity Scholarship

The Cloud Native Computing Foundation's scholarship program provides support to women, people with disabilities and other underrepresented minorities who may not otherwise have the opportunity to attend KubeCon + CloudNativeCon for financial reasons. Diversity and inclusion are important to CNCF, and we aim to remove this obstacle for underrepresented attendee groups. Showcase your organization's support of this important initiative by sponsoring the diversity scholarship program. Benefits include:

- Logo on website
- Recognition during the opening keynote
- Recognition in scholarship acceptance notifications
- Opportunity to provide and distribute branded item or gift to scholarship recipients (at sponsor's expense)

Diversity Lunch

Everyone attending is invited to join this special lunch and program featuring discussion around diversity and inclusivity in an open source community. The sponsor of this event positions themselves as an organization that fosters an ongoing conversation on the need for a diverse and inclusive open source community. Benefits include:

- Recognition on the agenda
- Signage at the luncheon
- Opportunity to nominate a presenter
- 5-minute opening or closing remarks – content subject to approval
- Sponsor may provide and distribute attendee giveaways at own expense

Women's Event

All women attending KubeCon + CloudNativeCon are invited to join this special event and program featuring discussion around diversity and inclusivity in an open source community. The sponsor of this event positions themselves as an organization that fosters an ongoing conversation on the need for a diverse and inclusive open source community.

Benefits include:

- Recognition on the agenda and website
- Signage at the event

Why sponsor PromCon?

Prometheus is a leading open-source monitoring system and time series database which is used by companies of all sizes for their mission-critical monitoring.

PromCon attracts a crowd of experienced and influential infrastructure engineers, both via in-person attendance and through video recordings that are made available to the public after the conference. Featuring your name and brand in front of this audience will drive the adoption of your products and services in the infrastructure world, as well as present you with potential hiring opportunities! And of course, if your organisation is using Prometheus already, you will benefit directly from helping its community to grow and thrive.

To give you an idea of the overall buzz in the Prometheus ecosystem, in July 2019, we counted:

- .. **47,000+** total GitHub stars across our repositories
- .. **6000+** contributors
- .. **6100+** pull requests (180+ open)
- .. **7000+** issues (750+ open)
- .. **600+** people in our IRC channel (#prometheus on freenode)
- .. **1500+** people on the mailing lists who have created 3400+ threads
- .. **150+** 3rd party integrations

There are several Fortune 500 companies using Prometheus, as well as some of the tech world's most influential movers and shakers.

You can find a small selection of companies using Prometheus on <https://prometheus.io/>.

Why sponsor EnvoyCon?

As on the ground microservice practitioners quickly realize, the majority of operational problems that arise when moving to a distributed architecture are ultimately grounded in two areas: networking and observability. It is simply an orders of magnitude larger problem to network and debug a set of intertwined distributed services versus a single monolithic application.

Originally built at Lyft and now a CNCF incubating project, Envoy is a high performance C++ distributed proxy designed for single services and applications, as well as a communication bus and “universal data plane” designed for large microservice “service mesh” architectures. Envoy runs alongside every application and abstracts the network by providing common features in a platform-agnostic manner. When all service traffic in an infrastructure flows via an Envoy data plane, it becomes easy to monitor problem areas via consistent observability, tune overall performance, and add substrate features in a single place.

To give you an idea of the overall buzz in the Envoy proxy we counted:

- 5000+ total GitHub stars across our repositories
- 200+ contributors
- 2500+ pull requests (25+ open)
- 1000+ issues (250+ open)

There are several internet scale companies like Airbnb, Apple, Google, Microsoft, Netflix, Pinterest and Tencent using Envoy, as well as some of the tech world’s most influential movers and shakers:

Kubernetes Forums

Kubernetes Forums in global cities bring together international and local experts with adopters, developers, and practitioners in an accessible and compact format. The Forums are designed to promote face-to-face collaboration and deliver rich educational experiences. At the Forums, attendees can engage with the leaders of Kubernetes and other CNCF-hosted projects and help set direction for the cloud native ecosystem. Kubernetes Forums have both a beginner and an advanced track; about half of the speakers are international experts and half are from the local area.

Kubernetes Forums allow international speakers and sponsor teams to double their cloud native event engagement with two events running consecutively in two cities during a single week. Sponsors can economically reach a broader audience within a brief window while saving on travel costs and maximizing their event and evangelist teams' time with global audiences.

Speakers and sponsors will arrive in Seoul no later than Sunday, December 8. The CFP-based sessions occur Monday, December 9. On Tuesday, December 10, attendees select among several co-located events. These may be cloud- or distribution-specific training or any other topics of interest to Kubernetes Forum attendees. Tuesday night, the sponsors and international speakers will take a red-eye flight to Sydney and recover Wednesday, where the time zone is only 1 hour different. The international speakers will present the same material from the Seoul event on Thursday, December 12, interspersed with a slate of new talks from different local speakers in Sydney. On Friday, December 13, the co-located events repeat.

Sponsorship Details

Sponsors can choose to separately choose sponsorship level and co-lo size for each city. Sponsor booths will be onsite with the conference on day 1. Co-Located events will be held on day 2 of Kubernetes Forums. Platinum and gold CNCF members doing diamond sponsorships and co-located events at both locations get first priority, then other organizations doing diamond and co-located events at both locations, then platinum and gold members doing other sponsorships, then everyone else.

Benefits of Sponsorship

- Extend your organization's visibility and presence to the developers, architects, & technical leaders in the local community
- Opportunity to network with quality, regionally targeted attendees during the event
- Associate your brand with one of the fastest growing technology communities
- Support and engage with the ecosystem around many of the most popular open source projects

2020 Budgeting

In 2020, CNCF is organizing Kubernetes Forums in: Bengaluru & New Delhi, Tel Aviv, Mexico City & Sao Paulo, Tokyo & Seoul, Singapore & Sydney. Event sponsorships will be similar in price and details to Seoul & Sydney in December 2019.

A 3% discount is available for CNCF members sponsoring one of these events or for non-members sponsoring two or more. CNCF members sponsoring two or more Kubernetes Forums receive a 5% discount, and CNCF members sponsoring five or more receive an 8% discount.

Kubernetes Forum Seoul

December 9 - 10, 2019

Kubernetes Forum Sydney

December 12 - 13, 2019

We are expecting 1,500 attendees at each event. Sponsor booths are on Day 1 of each event.

Cross-Promotion of Pre-Approved Community Events

Organizing an event for attendees? The Cloud Native Computing Foundation would be happy to help promote your event to our attendees. Only confirmed sponsors of KubeCon + CloudNativeCon are eligible for cross-promotion of their community events. Benefits include:

- Your event listed on the conference website and schedule.
- Optional: Your event listed on the KubeCon + CloudNativeCon registration form. Attendees can add your event to their conference registration. Additional registration processing fees apply based on number of attendees and event revenue.

Attendee T-Shirt

Sponsor logo will be placed on all attendee t-shirts. Logo size and placement subject to t-shirt design and CNCF approval. Logo must be single color only (no gradient colors).

Lanyards

Showcase your logo on every attendee with the lanyard sponsorship. Logo size and placement subject to lanyard design and CNCF approval. Logo must be single color only (no gradient colors).

Diversity Scholarship

The Cloud Native Computing Foundation's scholarship program provides support to women, people with disabilities and other underrepresented minorities who may not otherwise have the opportunity to attend KubeCon + CloudNativeCon for financial reasons. Diversity and inclusion are important to CNCF, and we aim to remove this obstacle for underrepresented attendee groups. Showcase your organization's support of this important initiative by sponsoring the diversity scholarship program. Benefits include:

- Logo on website
- Logo recognition during the opening keynote
- Recognition in scholarship acceptance notifications
- Photo opportunity with scholarship recipients

Diversity Lunch

Everyone attending is invited to join this special lunch and program featuring discussion around diversity and inclusivity in an open source community. The sponsor of this event positions themselves as an organization that fosters an ongoing conversation on the need for a diverse and inclusive open source community. Benefits include:

- Recognition on the conference website and schedule
- Signage at the lunch
- Nominate a presenter to give 5-minute opening or closing remarks - content subject to approval
- Sponsor may provide and distribute attendee giveaways at own expense
